EXTRACTS FROM THE SPEECH OF

Hon. J. H. Platt, Jr. of Virginia,

On the Bill for The enforcement of the Fourteenth Amendment, Delivered in Congress on the 5th of April, 1871.

Mr. Speaker, is there any one who believes that were this thing reversed, and these outrages, which are being committed upon the friends of the administration in the southern states were being committed by republicans upon democrats in democratic states—with a democratic majority in both branches of congress, a democratic president, and an army and navy in their hands—that a democratic congress would fail to find constitutional warrant for extending protection to their friends, although the state authorities, through weakness, cowardice, or treachery, should fail to call for assistance from the general government? The whole history of that party forbids such a supposition; and in their days of power they gave us a precedent which is sufficient justification to me for the votes I shall give on this bill and such amendments as may be offered. Is there any gentleman on the democratic side of this house, who is willing to admit that the fugitive slave law of 1850 was unconstitutional? I do not believe there is; and as one republican member from the south, I am willing to take that law—and changing its wording somewhat, so as to make the rights and privileges to be protected those of loyal men and free American citizens, instead of those of slaveholders—find in it all the protection which, as loyal citizens of the south, we demand from the government, which owes us the fullest protection its laws can extend.

The constitutionality of such a law could not be questioned, for it was affirmed in 1850 by the entire democratic party, and by the united and solid vote of that party upon this floor, forced through this house under the operation of the previous question, no opportunity for debate or amendment being permitted by the then democratic majority. Its constitutionality was maintained and defended by the party that enacted it as long as they continued in power, and affirmed again and again by the United States courts, then presided over by democratic judges. I desire to call the attention of the house to the remarkable provisions of this constitutional democratic law—this act, entitled, "An act to amend," &c., commonly known as the "fugitive slave law," which passed in this house in September, 1850, having previously passed in the senate. Its first section provides for the appointment of commissioners by the circuit courts to execute the powers and duties prescribed by the act. Section three provides that the number of these commissioners should be extended at the discretion of the court, and any number appointed that might be deemed necessary in carrying out the provisions of the act.

Section four confers such remarkable and extraordinary powers upon these commissioners that I quote it in full:

"And be it further enacted, That the commissioners above named shall have concurrent jurisdiction with the judges of the circuit and district courts of the United States in their respective circuits and districts within the several states, and the judges of the superior courts of the territories, severally and collectively, in term time and vacation, and shall grant certificates to such claimants upon satisfactory proof being made, with authority to take and remove such fugitives from service or labor to the state or territory from which such person may have escaped or fled."

Now, sir, having quoted as much of this act as I consider necessary to my purpose, let us see how easy it can be adapted to the present condition of affairs, and meet the requirements of the loyal men of the south, simply by so altering the text as to make its provisions apply to the prevention of outrages against life and property instead of to the catching and rendering up of fugitive slaves.

Under its provisions, the United States circuit courts could appoint as many commissioners as they pleased to appoint in every county in their respective districts, and these commissioners could in turn commission as many men as they deemed necessary to execute their warrants; would have all the powers of the circuit or district judges in term time or vacation; could issue their warrants for the arrest of any citizen, and the warrants would be good in any portion of the state; could summon every man in the county to assist in serving their processes, and if any refused to obey their mandate, could fine and imprison them for so doing; could include in that posse comitatus such portion of the United States forces, the army and navy of the United States, as might be within the territory over which they exercised jurisdiction, and would possess powers more ample to secure peace, and the most perfect protection to life, liberty and property in every state in the union; and the constitutional power of congress to confer these powers cannot be doubted, for has not the party whose representatives on this floor have so often assured us of their devotion to the constitution, stamped the seal of approval upon all its provisions, enacted into law all its principles, and enforced and maintained that law by all the machinery of the government? And the democratic party, having enacted this law and sustained its constitutionality before the adoption of the amendments to the constitution which have certainly conferred some new powers upon congress, cannot, I presume will not, attempt to question its constitutionality now.

It was good democratic constitutional law to empower an unlimited number of comparatively irresponsible U. S. marshals to use the army and navy of the U. S. to enforce U. S. laws when those laws were in the interest of the democratic party; and now, sir, we witness the remarkable spectacle of this party, which conferred such powers upon these men with no apprehension of injury to state governments—with no fears as to any destruction of our liberties—with no doubts as to their unconstitutionality—now boldly denying that this congress has any constitutional right to give the president of the United States power to use the army and navy, of which he is the constitutional commander-in-chief, in protecting American citizens from outrage and death; the party who under the fugitive slave law, marched United States soldiers over the very spot where the first martyr for American liberty shed his blood—and the blood of Christopher Attucks was as red as yours or mine, sir, though his skin was black.

The party who sent their troops over the spot which his martyrdom had consecrated to force back into slavery one poor wretch who had succeeded in flying to a land which he supposed to be a land of liberty—the party that did this act dares to tell the American people that there is no constitutional way to use the army or navy of the U. S. in protecting American citizens from outrage and death, unless the governor and legislature of the state in which these offences were committed should call for assistance. Sir, I have searched in vain for the call made by the governor or legislature of Massachusetts for troops to assist in the rendition of Anthony Burns. Every gentleman on this floor knows that the United States soldiers sent to that state by the democratic party to assist their bloodhounds in tearing from Massachusetts soil that poor, trembling fugitive, were not sent there at the request of that state, but by virtue of the law passed by a democratic congress, enforced by a democratic administration, and interpreted by a democratic attorney general, whose interpretation has been sustained by the courts; and I know the American people well enough to know that no legal sophistry can make them believe that it was constitutional to use the army and navy of the U. S. in returning fugitives to slavery, but that no constitutional means can be found to use these agencies for the protection of life, liberty, and property of free American citizens in every state in this union.

REV. G. W. TIMLOW'S LECTURE.—Last Tuesday's lecture presented a subject of singular interest. Rev. Mr. Timlow gave some of his experiences of "Hours with the spiritualists." Depending so much for its value upon the incidents related, we can scarcely give our readers an idea of it, without telling the marvels, or reciting the discoveries of this searcher after truth. Like a true philosopher, no facts in the history of mental operations are foreign to him; and for many years he has been following the thread of fact and truth, that lies almost invisable, woven into the web of falsehood and pretension that has called itself Spiritualism. He has consulted the most distinguished Mediums and assisted at "Seances" where spirits abound who had preserved no remnant of their bodily presence except their "knuckles." The result of all his researches is, that while certain unexplained facts bordering on the marvelous cannot be doubted, no one of them, nor all together, imply the agency of spirits. This conclusion was clearly drawn from an analysis and examination of the claims of the advocates of Spiritulism, and was admirably enforced.

At the close of the lecture, an eloquent and finely conceived contrast to Spiritism exhibited the *Spirituality* of the religion of Jesus; and left on every mind a wholesome impression of the value of Truth, over this specious form of Error.

We are advocates of scientific inquiry. Religion has nothing to fear from investigation of facts. Expose pretences, destroy the credit of false hoods, but let facts speak out. They will always utter themselves in the line of reveled Truth; for all the facts of existence are under the Providential control of the same Mind which wrote the Scripture. We accept this lesson of the lecture most heartily, and with the fullest assent.—*Standard of the Cross, Apr. 29th* 1871.

A Connecticut schoolboy has written a composition on the horse, in which he says it is an animal having four legs, one at each corner.

All efforts to make hay by gas light have failed, but it is discovered that wild oats can be sown under its cheerful rays.

MR. DARWIN'S EXPERIENCE WITH MONKEYS AND SNAKES.

In "The Descent of man," Mr. Darwin gives this account of some of his experiments:

Brehm gives a curious account of the instinctive dread which his monkeys exhibited towards snakes; but their curiosity was so great that they could not desist from occasionally satiating their horror in a most human fashion, by lifting up the lid of the box in which the snakes were kept. I was so much surprised at his account that I took a stuffed and coiled snake into the Zoological Gardens, and the excitement thus caused was one of the most curious spectacles which I ever beheld. Three species of Cropithecus were the most alarmed; they dashed about in their cages and uttered sharp signal cries of danger, which were understood by the monkeys and one old Anubis baboon alone took no notice of the snake. I then placed the stuffed specimen on the ground in one of the larger compartments. After a time all the monkeys collected around it in a circle, and staring intently presented a most ludicrous appearance. They became extremely nervous; so that when a wooden ball, with which they are familiar as a plaything, was accidentally moved in the straw, under which it was partly hidden, they all instantly started away. These monkeys behaved very differently when a dead mouse, a fish, and some other new object was placed in their cages; for though at first frightened, they soon approached, handled and examined them. I then placed a live snake in a paper bag, with the mouth loosely closed, in one of the large compartments. One of the monkeys immediately approached, cautiously opened the bag a little, peeped in and instantly dashed away. Then I witnessed what Brehm had described, for monkey after monkey, with head raised high and turned on one side, could not resist taking a momentary peep into the upright bag, at the dreadful object lying quietly at the bottom. It would almost appear as if monkeys had some notion of zoological affinities, for those kept by Brehm exhibited a strange, though a mistaken, instinctive dread of innocent lizards and frogs. An orang, also, has been known to be much alarmed at the sight of a turtle.

Judge Howe, of the Albany county court, Wyoming, said in open court the other day:

'I notice that several women have been summoned as jurors at this term, and a few words from the court in relation to this fact seem called for and appropriate. A year ago, for the first time in the history of the world women were selected, summoned and impanneled in this court both as grand and petit jurors, and served as such during the term of court then in session in this city with so much intelligence, discrimination, honesty, propriety of conduct, in all respects, that the court felt bound to say; that they had gone far to vindicate the policy, justify the experiment and realize the expectations of those who had clothed them with the right.

The bar and the bench, and the intelligent business men of the whole country have felt that something is needed to improve and purify our jury system, something to lift it above prejudice and passion, and imbue it with a higher regard for the law, for justice, oath and conscience. Perhaps the introduction of this new elemement may accomplish this, and I am willing that a full and fair opportunity shall be afforded to try the experiment, and I hope it will prove a success.'

John Phœnix once was walking along one of the principal streets of San Francisco, when a wagon drove past bearing the inscription "Eagle Bakery." Phœnix immediately hailed the driver, and, going up to him when he was pulling in his horse, asked for a baked eagle. The astonished driver glared at the sober visaged party having such a preposterous want, and informed him, in a most decided manner that he knew nothing of eagles, but was a vender of bread. "Now, see, here, my good fellow," said Phœnix, pointing to the inscription on the side of the wagon, and putting sternness into his voice, "you give out your sign that you are a dealer in baked eagles, and yet when a purchaser appears you coolly inform him that you know nothing about eagles. Now, if you don't either alter your sign, or get in a stock of eagles, I'll have you indicted as a swindler, with your 'eagle bakery' —good morning." Phœnix, with a face full of indignation, moved on, leaving the poor baker in a high state of alarm, and the firm conviction that his light loaves were nought but unlawful, hypocritical dough.

The Rev. Dr. West, of New Bedford once heard that his choir would refuse to sing on the next Sunday. When the day came he gave out the hymn: 'Come ye who love the Lord.' After reading it through he looked up very emphatically at the choir, and said: 'You will begin at the second verse,' 'Let those refuse to sing who never knew our God.' The choir sang.

A western editor in response to a subscriber who grumbles that his paper was intolerably damp, says it is because there is so much due on it.

Science has developed certain great truths, and among the greatest yet evolved is the so called origin of man, or the theory of Darwin. Now, some men cry out, if these things be true, then the Bible isn't true. Let us go further back, and take the Copernican system. After a while thinking men were obliged to shift their ground and give a different interpretation to the Bible. Look at the havoc geology has made. It completely upset the first chapter of Genesis. In so many days God created the earth. What did we do with this? Why we merely concluded to call days periods of time, and geology and the Bible walked hand in hand.

Now we have come to Darwin, and have found out our ancestors. (A general laugh all over the church.) Adam and Eve are getting to be unfashionable. Some folks don't know so much about the garden of Eden as they thought they did; and they don't seem quite pleased about this discovery of their ancient relatives, and are trying to shake these things off. You can't rub this out if it is true. You have got to make your interpretation of Scripture comformable to nature. Scientific disclosures are the best illuminator that can be given to men. Nature makes commentators that stand. We may as well prepare ourselves to accept this theory of elimination—this growth from the animal to the spiritual; and I for one am all ready for it.

The argument which affords the strongest theory is the essential pliancy and educability of man. He realizes that his way is upward and onward. To go up higher he must be educated—in other words must advance from the animal to the spiritual. This is just the progress that the Bible teaches us to expect. The more the Bible is tried and tested by philosophical research, the stronger it is found to be. We can accept the deductions of science and be better Christians. Those who throw the Bible away entirely are very unwise. If a man lights his gas, and then blows out the candle, that is as it should be. There are folks that blow out the candle because they have a theory of gas, and before a pipe has been introduced into their houses.

When you find me a Bible that is more Bibler than this one, I am ready to accept it. This has a grip in it. It retains its hold upon man.—*H. W. Beecher.*

THE POWER OF CHILDERN.

A man was leaning, much intoxicated, against a tree; some little girls coming home from school saw him there, and at once said to each other "what shall we do for him?

Presently one said, "Oh? I'll tell you, let's sing him a temperance song.'

And so they did; collecting around him, they sang—

"Away the bowl, away the bowl,"

and so on in beautiful tones.

The poor fellow enjoyed the singing, and when they had finished that song, said, sing again, little girls, sing again.

"We will if you sign the temperance pledge," they said.

"No, no; we are not at a temperance meeting; there are no pledges here."

"I have a pledge," cried one. "And I have a pencil," cried another, and holding up the pledge and pencil, they besought him to sign it.

"No, no; I won't sign it now. Sing for me."

So they sang again—

"The drink that's in the drunkards bowl
Is not the drink for me."

"Oh, do sing that again," said he, as he wiped the tears from his eyes.

"No more," they said, "unless you'll sign the pledge; sign and we will sing it for you."

He pleaded for the singing, but they were firm, and declared they would go away if he would not sign.

"But," said the poor fellow, striving to find an excuse "there is no table here, how can I write without a table?"

At this a modest, quiet, pretty little creature, with a finger on her lips, came and said, "Yes, you can spread the pledge on the crown of your hat, and I will hold it for you.

Off came the hat, the child held it, and the pledge was signed, and the little ones burst out with—

"Oh water for me, bright water for me,
Give wine to the tremulous debauchee."

I heard that man in Worcester town hall, with uplifted hands and quivering lips say, "I thank God for the sympathy of those children. I shall thank God to all eternity that He sent those little children as messenger of mercy to me.—*John B. Gough.*

GOOD READING.

There is one accomplishment in particular, which I would earnestly recommend to all girls on "leaving school," as I am in the habit of doing to all your sex. Cultivate assiduously the ability to read well. I stop to particularize this, because it is a thing so much neglected, and because it is so very elegant, charming and ladylike an accomplishment. When one person is capable of becoming a skillful musician twenty may become good readers. Where there is one occasion suitable for the exercise of musical talent, there are twenty for that of reading. The culture of the voice, necessary for reading well, gives a delightful charm to the same voice in conversation. Good reading is the natural exponent and vehicle of all good things. It is the most effective of all commentaries upon the works of genius. It seems to bring dead authors to life again, and makes us all sit down familiarly with the great and good of all ages. Did you ever notice what life and power the Holy Scriptures have, when read well? Have you ever heard of the wonderful effects produced by Elizabeth Fry among the hardened criminals of Newgate by simply reading to them the parable of the Prodgial Son? Princes and peers of the realm, it it said, counted it a privilege to stand in those dismal corridors among felons and murderers merely to share with them the privilege of witnessing the marvelous pathos which genius, taste, and culture could infuse in that simple story. What a fascination there is in really good reading! What power it gives one! In the hospital, in the chamber of the invalid, in the nursery, in the domestic and social circles, among chosen friends and companions, how it enables you to minister to the amusement, the comfort and the pleasure of dear ones as no other art or accomplishment can! No instrument of man's devising can reach the hears as does the most wonderful of instruments, the human voice. It is God's special gift and endowment to his chosen creatures. Fold it not away in a napkin. If you would double the value of all your other acquisitions; if you would add immeasurably to your own enjoyment, and to your power of promoting the enjoyment of others, cultivate with incessant care this Divine gift. No music below the skies is equal to that of pure, silvery speech, from the lips of a man or woman of high culture.—*Professor Hart.*

TYPOGRAPHIC BLUNDERS.

There is no funnier reading in the world than some of the printers' blunders that go the rounds of the papers. We shall keep a sharp eye for these, and produce them for the entertainment of our readers. Here are a few that a laugh or two may be found in.

In the office of a New York paper there stood in type the report of a sermon, and a paragraph about the career of a mad dog. In "making up" these two get mixed, and the reader of the paper, next day, was astonished by the following *melange.* 'The Rev. James Thompson preached to a large audience last Sunday. This was his sermon previous to his embarkation for Europe. He exhorted his brethren and sisters, and after offering a devout prayer, took a whim to cut up some frantic freaks. He ran up Smith street to Brown, and down Carr street to College. At this stage of the proceedings some boys seized him, tied a teakettle to his tail, and let him go. A great crowd gathered, and for a few minutes there was a lively scene. Finally he was shot by a policeman."

A printer in Syracuse, setting up a book advertisement, thus gave the title of one of Dickens's novels: "Barney, by Rudge, $1.50.

The writer of an obituary notice of an estimable lady, said that the bereaved husband was "hardly able to bear the demise of his wife." Imagine his disgust on reading in print that the bereaved husband was 'hardly able to wear the *chemise* of his wife."

The London Court Journal once in describing a wedding in high life, said that the bride was accompanied to the altar by tight bridesmaids. The lovely young ladies were eight not tight.

A Providence paper once announced that Rev. Dr. Wayland, president of Brown University 'gave a billiard party.' The editor wrote brilliant party.

The importance of careful punctuation cannot be insisted on too urgently. Here are a few facts which illustrate it: 'Wanted a young man to take charge of a pair of horses of a religous turn of mind.' 'A child was run over by a wagon three years old cross-eyed with pantalets which never spoke afterward.' 'The procession was a very fine and nearly ten miles in length, as was also the prayer of Dr. Perry, the Chaplain.' 'Lost, an enamelled lady's gold watch and charms.' A toast at a public dinner—"Woman—without her, man is a brute,' was printed—'Woman without her man, is a brute.

Michigan is out doing Ohio, even, in the stringency of its enactments against the infernal traffic in intoxicating liquors. The new liquor law of that state provides a fine of $25 for the first conviction, $50 for the second and $100 for the third, no matter what beverage is sold, so that it comes under the head of intoxicating drinks. In case a man receives intoxicating drinks in a saloon and goes away and does injury to a person or to property, the saloon keeper is not only held liable for the damage, but the person from whom he rents the saloon can also be held. If a saloon keeper is convicted of selling liquors: his lease of any place where it was sold is declared forfeited, although he may have just come in possession. If the wife of a drunkard or a drinking man can prove that herself or children have been damaged through reason or in consequence of such sale, she can sue and recover. There is also a clause in the bill which amends the old law in regard to compelling the attendance of witnesses, and obliges a prompt response to the requirements of a subpœna. There was a clause in the old law, which probably remains unrepealed, providing that, in case of appeal, the person making it must give bonds not to sell liquor until his appeal has been decided.—*Akron Beacon.*

Massillon, Wednesday, May 10.

The Cleveland editorial convention, which is to convene on the 11th of July, can only be made an occasion of interest and value to the profession by bringing up and transacting such business as legitimately comes before it. Those having special reports to make have something to do, and will need all the aid, information and suggestions of the rest of the brotherhood, if they fully perform their duty. Can this assistance be had?

It has been suggested that as a state convention collects a body of greater magnitude, and involves a wider range of interests than can well remain together a sufficient length of time, to discuss and digest properly such measures as are naturally connected with it—weeks rather than days being requisite for this purpose—that district meetings of the profession be held in contiguous counties. To us the idea is a plausible one; for suppose the editors of this (17th) congressional district meet together at a designated time and place, there will be about twenty-five, and that will be as many as can readily transact such business as may come before them. Thus it obviates the difficulty of such diverse interests as the entire state embraces—not that there are necessarily conflicting interests, but localities distant from each other are not and cannot be affected alike in all particulars. Delegates appointed by these district conventions may appoint delegates to state conventions, and thus be enabled to legislate for the craft in Ohio. These suggestions are made for the consideration of such as feel interested in these things.

For the special information of the ku klux murderers in the south the president issued a message, on the 3d inst, indicating to them in very plain terms that all such misdoings as they have been guilty of must cease, or efficient means will be adopted to enforce the laws. The document is firm, calm and candid in its positions, deals in no bluster or bravado, but is worded in such terms as no one can misunderstand. Some of the democracy have been representing that these southern outrages are the doings of negroes. If so, why are they opposed to suppressing them? Certainly they are not so in love with the colored people as to screen them from justice, if guilty. And if the authorities find out that the perpetrators are black men, rest assured they will be punished as severely as those of another hue.

Quoting the brief article that appeared in this paper some three weeks ago, wherein was suggested the propriety of re-electing our present delegation to the legislature. The Alliance Moniter says: We have no reason for disagreement with our confrere in Massillon, regarding the justice of returning our present Senators and Representatives to their position in Columbus. Moreover, we are confident the people do not desire any change, and hence do not propose to make any at the coming election. As to Mr. Johnson, we do not know of any who would have another man to occupy his position except a very insignificant ring; those are either would-be occupants, or of the *posse comitatus*. So far as just, faithful and honorable legislation weighs, Mr. Johnson has the whole ground, and to introduce a new man in the face of this record would be injustice in every sense of the word. We repeat, we expect no serious effort for a change in our locality, and hence we advise aspirants: "Wait, gentlemen, till a more auspicious hour arrives, and possibly the public will appreciate your earnest longing to serve them for the good of the State alone."

As to rings and cliques we know nothing of them in this neighborhood in connection with our representatives—only take it for granted that our delegation has done well, and if the people see proper they can return them to the legislature.

The *Monitor* also mentions the name of John R Hunter in connection with the office of U. S. senator. Mr. H is a most worthy man, and we may set him down as competant to fill such a position.

The republican state convention meet at Columbus for the purpose of nominating candidates for state officers on the twenty-sixth of next month, and transacting such other business as may come before them. The Stark county political authorities of the same party have decided to hold the nominating convention for county officers away off on the 20th of August—some two months after the state convention. There may be advantages in the last named arrangement, but everybody don't see it in that light. August is the eight month, and to October 10th (election day) it is about 50 days. Individuals and cliques of the republican party have from now to Aug. 20 about 80 days in which to battle each other, if they wish, while they have but 50 days in which to combat the common opposition. Can a change be made to an earlier day for county nominations?

We understand that [illegible] have taken the contract to furnish [illegible] for the new gas works—we know they will make it go.

7-30 GOLD LOAN

OF THE

Northern Pacific Railroad.

Rapid Progress of the Work.

The building of the Northern Pacific Railroad, (began July last), is being pushed forward with great energy from both extremities of the line. Several thousand men are at work in Minnesota and on the Pacific coast. The grade is nearly completed 263 miles westward from Lake Superior; trains are running over 130 miles of finished road, and track laying is rapidly progressing toward the eastern border of Dakota. Including its purchase of the St. Paul & Pacific road, the Northern Pacific Company now has 415 miles of completed road, and by September next this will be increased to at least 560.

A Good Investment.—Jay Cooke & Co., are now selling, and unhesitatingly recommend, as a profitable and perfectly safe investment, the first mortgage land grant gold bonds of the Northern Pacific Railroad company. They have 30 years to run, bear seven and three tenths per cent gold interest (more than 8 per cent currency) and are secured by first and only mortgage on the entire road and its equipments; and also as fast as the road is completed on

25,000 Acres of Land to every mile of track, or 500 acres for each $1000 bond. They are exempt from U. S. tax; principal and interest are payable in gold; Denominations: Coupons, $100 to $1000; Registered, $100 to $1000.

Lands for Bonds.—Northern Pacific 7 30's are at all times receivable at ten per cent above par, in exchange for company's lands, at their lowest cash price. This renders them practically interest bearing land warrants.

Sinking Fund.—The proceeds of all sales of lands are required to be devoted to the re-purchase and cancellation of the first mortgage bonds of the company. The land grant of the road exceeds fifty million acres. This immense sinking fund will undoubtedly cancel the principal of the company's bonded debt before it falls due. With their ample security and high rate of interest, there is no investment accessible to the people, which is more profitable or safe.

Exchanging U S Five-Twenties.—The success of the new government five per cent loan will compel the early surrender of the 6 per cents. Many holders of five twenties are now exchanging them for Northern Pacific Seven-Thirties, thus realizing a handsome profit, and greatly increasing their yearly income.

Other Securities.—All marketable stocks and bonds will be received at their highest current price in exchange for Northern Pacific seven-thirties. Express charges on money or bonds received, and on seven-thirties sent in return, will be paid by the financial agents. Full information, maps, pamphlets, etc., can be obtained on application at any agency, or from the undersigned.

Administrator's Sale of REAL ESTATE.

In pursuance of an order granted by the Probate Court of Stark County, Ohio, I will offer for sale, at public auction, on Tuesday, the 23d day of May, 1871, commencing at ten o'clock, forenoon, upon the premises, near the village of West Brookfield, in Stark county, Ohio, the following described several parcels of real estate, situated in the said county of Stark, and state of Ohio, and which are severally described as follows:

One parcel being a part of the south-west quarter of section eleven, in township number twelve of range ten, commencing for the same at the north-west corner of the south-west quarter of said section, thence east, variation two degrees south, twenty chains, to a post, on the north line of said south-west quarter; thence south, variation two and three quarters degrees west, twenty-two chains and ninety-seven links, to the center of the Massillon and Wooster road; thence north, eighty-five degrees west, along the center of said Massillon and Wooster road, twenty chains and two links, to the center of said section on the west line; thence north, variation two and three quarters degrees east, twenty-one chains and thirty-eight links, to the place of beginning; containing forty-four acres and thirty-five hundredths of an acre, appraised at four thousand six hundred and fifty-six dollars and seventy-five cents.

One parcel, also being a part of said section eleven, commencing for the same at a stone, at the center of said section, thence south, variation two and three quarters degrees west, twenty-four chains and thirty-six links, to the south side of Massillon road; thence west, variation two degrees north, along the south side of said road, four chains and ninety-three links; thence north eighty-two degree west, ten chains and eighty-eight links, to center of Massillon road, where another road intersects it; thence west, variation two degrees, four chains and seventy-four links to a stone in the center of Massillon road; thence north, variation two and three quarter degrees east, twenty-two chains and ninety-seven links, to the north line of the north-west quarter of said section; thence east, variation two degrees south, twenty chains and fifty-three links to the place of beginning; containing forty-eight acres and sixty-two hundredths of an acre, appraised at six thousand two hundred and twenty-three dollars and thirty-six cents.

One parcel, also being a part of said section eleven, commencing for the same at a stone three chains and thirty-six links west of the south-east corner of said section; thence north, eighty-nine degrees west, sixteen chains and fifty-one links to the center of road on south line of said section; thence north twenty-two degrees east in center of Mass llon road, three chains and thirty two links; thence north thirteen and one quarter degrees, east, fourteen chains and four links, center of Massillon road, where center of road intersects; thence south, eighty-three and three quarters degrees east, ten chains and eighty links south side of Massillon road; thence south two and three quarters, variation, two chains and eighty-six links; thence south eighty-nine degrees east one chain and fifty seven links; thence south one and one quarter degrees west, twelve chains and ninety-six links to a stone at the place of beginning; containing twenty two acres and seventy-five hundredths of an acre, appraised at one thousand nine hundred and thirty-three dollars and seventy-five cents.

One parcel, also being a part of said section eleven, commencing for the same six chains and thirty links east of the south-west corner of said section, thence north, variation two and three quarters degrees, eighteen chains and eighteen links to a stone in center of Massillon road; thence south eighty five degrees east, along the Massillon road, thirteen chains and seventy links to a stone in center of Massillon road; thence east variation two degrees, south, four chains and seventy four links to center of Massillon road where road intersects; thence south thirteen degrees west, fourteen chains and four links; thence south twenty two degrees west, three chains and thirty two links to a stone in the center of road on south line of the south west quarter of said section; thence west two degrees north, along the south line of said south west quarter, fourteen chains and thirty eight links to the place of beginning; containing twenty nine acres and eighteen one hundredths of an acre, appraised at two thousand four hundred and eighty dollars and thirty cents.

Also, one parcel of land being a part of the south east quarter of said section eleven, and which is bounded as follows: beginning at a post on the north side of the state road in the village of West Brookfield, at the south east corner of a lot formerly owned by Jacob Ritter, and now owned by George Hake (formerly) running northwardly with said lot to lands of Stephen Thacker; thence east with said Thacker's line four perches, to an alley; thence southwardly with said alley to the state road; thence west with said state road four perches to the place of beginning; containing one fourth of an acre, more or less, appraised at six hundred dollars.

Also, one parcel of land, being also a part of said south east quarter of said section eleven, and which is bounded and described as follows: beginning at a post on the north side of the state road in the village of West Brookfield, twenty perches east of the west line of said quarter section; thence north to the middle line of said quarter section; thence east along said middle line four perches; thence north to the state road; thence west along the north of said state road four perches to the place of beginning; containing fifty four perches, more or less, appraised at one thousand dollars,

TERMS OF SALE,

One third to be paid in money on the day of sale; one third in one year, and one third in two years from the day of the sale, with interest; the deferred payments to be secured by mortgage upon the premises sold. All sown or planted crops upon any of said premises, not including grasses, are reserved to the owner thereof, and the right to cultivate and gather the same.

JURUBEBA

WHAT IS IT?

It is a sure and perfect remedy for all diseases of the liver and spleen, enlargement or obstruction of intestines, urinary, uterine or abdominal organs, poverty or a want of blood, intermittent or remittent fevers, inflamation of the liver, dropsy, sluggish circulation of the blood, abscesses, tumors, jaundice, scrofula, dyspepsia, ague and fevers or their concomittants.

Dr. Wells having become aware of the extraordinary medicinal properties of the south American plant, called

JURUBEBA

sent a special commission to that country to procure it in its native purity, and having found its wonderful curative properties to even excell the anticipations formed by its great reputation, has concluded to offer it to the public, and is happy to state that he has perfected arrangements for a regular monthly supply of this wonderful plant. He has spent much time in experimenting and investigating as to the most efficient preparation from it, for popular use, and has for some time used in his own practice with most happy results the effectual medicine now presented to the public as

Dr Wells' Extract of Jurubeba.

And he confidently recommends it to every family as a household remedy which should be freely taken as a blood purifier in all derangements of the system and to animate and fortify all weak and lymphatic temperaments. Vinegar Bitters are not a vile Fancy Drink, Made of **Poor Rum Whiskey, Proof Spirits and Refuse Liquors** doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the **GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE,** a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these **Bitters** have been most successful. **Such Diseases** are caused by **Vitiated Blood,** which is generally produced by derangement of the **Digestive Organs.**

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erisipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores, cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE, and other **WORMS,** lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

Hoofland's GermanBitters,

Hoofland's German Tonic,

Hoofland's Podophyllin Pill

Hoofland's Greek Oil.

Hoofland's German Bitters,

A Bitters without Alcohol or Spirits of any kind.

Is different from all others. It is composed of the pure juices of vital principles or roots herbs, and barks, (or as medicinally termed extracts), the worthless or inert portions of the ingredients not being used. Therefore, in one bottle of this bitters there is contained as much medicinal virtues as will be found in several gallons of ordinary mixtures. The roots &c., used in this bitters are grown in Germany, their vital principles extracted in that country by a scientific chemist and forwarded to the manufactory in this city, where they are compounded and bottled. Containing no spirituous ingredients, this bitters is free from the objections urged against all others; no desire for stimulants can be induced from their use, they cannot make drunkards, and cannot under any circumstances, have any but a beneficial effect.

Hoofland's German Tonic

Was compounded for those not inclined to extreme bitters, and is intended for use in cases where some alcoholic stimulant is required in connection with the tonic properties of the bitters. Each bottle of the tonic contains one bottle of the bitters, combined with pure Santa Cruz Rum, and flavored in such a manner that the extreme bitterness of the bitters is overcome, forming a preparation highly agreeable and pleasant to the palate, and containing the medicinal virtues of the bitters. The price of the tonic is $1,50 per bottle, which many persons think too high. They must take into consideration that the stimulant used is guaranteed to be of a pure quality. A poor article could be furnished at a cheaper price, but is it not better to pay a little more and have a good article? A medicinal preparation should contain only the best ingredients, and they who expect to obtain a cheap compound will most certainly be cheated.

They are the greatest known Remedies

For Liver Complaint, Dyspepsia, Nervous Debility, Jaundice, Disease of the Kidneys, Eruptions of the Skin, and all diseases arising from a disordered, Liver, or Stomach, or Impurity of the Blood.

Read the following symptoms:

Constipation, flatulence, inward piles, fulness of blood to the head, acidity of the stomach, nausea, heartburn, disgust for food, fullness or weight in the stomach sour eructations, sinking or fluttering at the pit of the stomach, swimming of the head, hurried or difficult breathing, fluttering at the heart choking or suffocating sensations when in a lying posture, dimness of vision, dots or webs before the sight, dull pain in the head, deficiency of perspiration, yellowness of the skin, and eyes, pain in the side, back, chest, limbs, &c., sudden flushes of heat, burning in the flesh, constant imaginings of evil, and great depression of spirits. All these indicate disease of the liver or digestive organs combined with impure blood.

The use of the bitters or tonic will soon cause the above symptoms to disappear, and the patient will become well and healthy.

Dr. Hoofland's Greek Oil,

LIGHTNING CURE FOR ALL KINDS OF PAINS AND ACHES.

Apilied Internally.—It will cure kidney complaints, backaches, sick headaches, colic, dysentery, diarrhœa, cholera Infantum, cholera morbus, cramps, and pains in the stomach, fever and ague, colds, coughs Asthma, &c.;

Applied Externally.—It will cure all kinds of pains and aches, such as rheumatism, neuralgia, toothache, chilblains, sprains bruises, frost bites, headaches, pains in the back and loins, pains in the joints or limbs, stings of insects, ringworms, &c.

Dr Hoofland's Podophyllin

Substitute for Mercury Pill.

TWO PILLS A DOSE.

The most powerful, yet innocent vegetable cathartic known.

It is not necessary to take a handful of these pills to produce the desired effect; two of them act quickly and powerfully, cleansing the liver, stomach and bowels of all impurities. The principal ingredient is Podophyllin, or the alcoholic extract of mandrake which is by many times more powerful, acting, and searching, than the mandrake itself. Its peculiar action is upon the liver, cleaning it speedily from all obstructions, with all the power of mercury, yet free from the injurious results attached to the use of that mineral.

For all diseases in which the use of a cathartic is indicated, these pills will give entire satisfaction in every case. They never fail,

In cases of liver complaint, dyspepsia, and extreme costiveness, Dr. Hoofland's German Bitterrs of tonic should be used in connection with the pills. The tonic effects of the bitters or tonic builds up the system. The bitters or tonic purifies the blood, strengthens the nerves, regulates the liver and gives strength, energy, and vigor.

Keep your bowels active with the pills, and tone up the system with bitters or tonic, and no disease can retain its hold, or ever assail you.

These medicines are sold by all druggists and dealers in medicines everywhere.

Recollect that it is Dr. Hoofland's German Remedies, that are so universally used and highly recommended; and do not allow the druggist to induce you to take anything else that he may say is just as good, because he makes a larger profit on it. These remedies will be sent by express to any locality, upon application to the principal office at the German Medical Store, 631 Arch Street, Pa.

LOCAL MATTERS.

G. W. Timlow, for several years rector of St. Timothy's parish (Episcopal) of this place, on last Sunday preached his "parting" discourse to an attentive and interested congregation. Ever since his advent here his labors have been acceptable to his parishioners, and many who are not members of the Episcopal church highly esteem the man for his intrinsic worth, his evident ability in his sphere, and the earnestness with which he so faithfully labored to promote the welfare of all with whom he came in contact, whether of his charge or outsiders.

Advertisers crowd us hard again this week.

Among the jour printers there are some of the finest and noblest specimens of humanity—then there is another class not quite so noble or fine. Among the latter are those chaps, who in many respects may be rather valuable members of the craft, but they are sometimes sadly unfortunate in the practice of imbibing too much liquor. With all their intelligence they can't conceal this fact from one who is the least observant. A stinking breath is an infallible sign, and there are too many who exhale such inodorus perfumes as to make themselves repulsive. And they are always strapped—dead broke—and if a generous heart gives them a lift they often spend it at the first grogshop. What shall we do with them? Tell them no topers need apply? It is a hard question for a humane man to answer.

For beginners in business P. & H. Dielhenn are doing a thriving business at their new and beautifully furnished room. Elsewhere in this paper they speak for themselves.

A new two story frame building was lately erected at the south end of the stone block, so one of our reporters states,—consisting of a bird cage.

The semi-annual meeting of the Canton district Sunday School meets at Malvern Carroll county, on the 16th and 17th of this month.

The dry weather which was so much complained of a week or two since, has been followed by many wholesome and timely showers. A thunder storm visited us last Friday, accompanied with a fine shower of rain. At Earl's Mill, not more than a mile distant, they had a heavy fall of hail at the same time, which cooled down the air very much. In the east and west snow storms have occurred very recently. This accounts for the coldness of the atmosphere, and excites apprehensions lest the fruit prospects may all be blighted.

On examination we find that our Salem neighbors are truly wide awake in regard to the temperance question. Leading men of the place not only sympathies with, but take an active part in the reform, and preachers of the various denominations are all co-laborers and eagerly perform their part of the work. Every Sunday afternoon the people fill a good sized hall in listening to a lecture by some previously appointed speaker. Last Sunday Mrs. M. M. Brown, editor of the Alliance *Monitor*, pronounced an excellent, well proposed lecture, in which she evinced much research, and exhibited rare ability in elegance of diction, accompanied with forcible arguments and vivid illustrations concerning the great evil wrought by intemperance.

The noted Brick Pomeroy's wife has been divorced from him, as they have not lived together for years, and the court allows her allimony to the amount of $20,000. The Herald says Brick is paying attention to a lady at Cleveland who has been through the divorce mill herself, and knows how it is.

Every Saturday of the 13th inst. has some very fine illustrations of those noted poems, Little Breeches and Jim Bludsoe, by S. Eytinge. This artist is one of the best limners of human characteristics in the country, and many of his pictures in Dickens' works are truely life like. So of his treatment of the heathen Chinee, whose child like and bland face contrasts strongly with the bilious, angular features of Bill Nye, Jim Bludso's compressed lip, and earnest eyes, and the finding of Little Breeches among the little lambs, are speaking delineations of the rough but determined characters therein depicted.

On Saturday evening last Dr A. Houtz of Canal Fulton was stabbed in the abdomen and two inches below and to the right of the umbilicus, by a man by the name of Cooney. The cause of the unfortunate result being a very trifling nature, renders the case peculiarly interesting to lovers of peace. Dr. Ridenour of Massillon was sent for, who, upon arriving found the Dr. suffering from an exhaustive hemorage, an artery of small caliber, the epigastic, having been severed. The intestines were not penetrated. It is time a stop should be put to this indiscriminate use of knives and revolvers by rowdies, or in other words our county jurors and court generally are entirely too lenient in disposing of these dastardly would-be murderers, and as the sequal proves, sometimes, first degree murderers. We hope the law in reference to these criminals will be fully vindicated in future, else no man's life is safe from the bloody hands of these desperadoes, who, we are sorry to say, are getting numerous and we have no doubt that the decisions of our courts have something to do with it.

Improvements continue to progress in the park, and in a short time, it will present an attractive appearance, when the walks are laid out and fixed, fountains put up, and other arrangements made to beautify and adorn the premises. Those who have charge of it are making every effort to improve the limited space they have to work in, and we trust that by the time they are through, that the mass of our citizens will be gratified and even proud of this attractive portion of the city.

Fine Arts and Music.—The Opera House is engaged on next Monday and Tuesday evenings for the presentation of the celebrated Miltonian Tableax, extensively known as a rare work of art, as it has been seen by many hundreds of thousands of people. The vivid scenes there presented are of a character that make such an impression upon the mind that when once seen they cannot be forgotten. Programmes giving full details will be circulated, so that visitors will have some idea of the magnificence of the exhibition.

On Wednesday and Thursday evenings the Appy troupe will give two of their rare concerts of vocal and instrumental music. See notice elswhere.

The liquor inspirations have been doing their usual work. Saturday, we are informed, that they had quite a spirited row at Canton, in consequence of the effervescence of lager or something stronger. At Fulton Saturday evening also a row took place of a more serious neture. Some fellow got into an altercation with Dr. Houtz, drew his knife and severely cut the latter in the abdomen. It is hoped the injury may not prove fatal, though the perpetrator was arrested and brought before Esquire Warner-when in default of bail he was taken to Canton, to await the action of the courts. A sober man would not do so base an act.

STARK CO. MEDICAL SOCIETY.

The attendance at the recent meeting of the society held in the Y. M. C. A. Rooms, in this city, was unusually large, which shows a growing interest.

The meetings of this society will hereafter be held alternately at Canton and Massillon, the first Thursday in each month.

The society listened to a very elaborate and commendatory address delivered by Dr. A. Metz, the subject being The History and Progress of Medicine during the Present Century. Dr. L. M. Whiting was appointed by the chair to deliver the address at the next convention. Dr. Doudy was appointed as essayest.

Dr. L. M. Whiting moved that the subject for discussion at the next meeting be the Germ Theory of Disease. Motion was carried.

The convention feels itself under great obligation to the exemplary Y. M. C. A. of Massillon for the use of their rooms, and will ever feel kindly toward all benevolent and charitable associations as the above.

After the transaction of other business the society adjourned, on motion to meet at Canton June 1st.

For the Independent.

THE DUTIES OF THE ADVOCATES OF TEMPERANCE.

Eternal vigilance is the price of liberty. This sentence spoken by Washington when alluding to the dangers which might threaten the country in the future, can well be the watchword of all advocates of the temperance cause; reminding them of their duty to endeavor by all fair means to curtail, in as great a measure as possible, the infamous traffic in liquors: let them remember that those who will ply rum to our most useful men for the purpose of making money and a lazy living, will not hesitate to take all advantages in their power; let us not suppose that they have any conscience or principle, therefore, it is useless to remonstrate with them, and the best way to get at their conscience is to pull it from their pockets; and the deeper you go the quicker it will be reached. As for principle, they have none; for it takes a man who has reached the lowest depths of meanness before he can come down so low as to give his fellow men that which can and will only bring him to misery and destruction, and if they have a spark left when they enter the business, 'tis extinguished in a few short weeks. Strike heavy at the pocket, and every time the law regulating the sale of intoxicating drinks is violated, prosecute the offenders with rigor. Then strengthen your forces by all available means, with recruits to fight this rum-seller's fiend, the Demon Whisky. Stand boldly in your places for you have a mighty enemy to fight, and one that will make a desperate struggle, but flinch not, for God surely defends the right, and where is there a more rightous and charitable cause than that of temperance? The assistance of all classes who are in danger from this subtle foe is needed. Fathers, you are needed, for remember you are in danger of falling into the toils of this serpent, and he will rob your wife and little ones of the comforts that justly belong to them. Take the last dime left to buy them bread, and then when he has got all, will leave you in the gutter a miserable, degraded object, with none to pity you, no not even he that gave to you the poison. Mothers, you too are needed with your gentle influence which has always had a heavy weight in the affairs of the world; remember that the innocent babe in your arms will have this terrible gauntlet to run, and may fall a victim to this remorseless destroyer

Death loves a shining mark, and it seems whisky does also, for generally our most noble hearted and useful men are its first victims. Young men, you are wanted to strengthen the forces for the right; remember every dime you squander for rum helps you to an untimely and an unhonored grave, and also puts a shingle on the roof of some unsruplous being who will lure you on to certain destruction. Then pause and consider. Shingle your own roof ere it becomes to late for repair; make no compromise with whisky; come out boldly and decidedly against it: do not get astride the fence; you are spending to starv yourself in laziness; remember that dimes make dollars, and that great oaks from little acorns grew.

Young ladies, you can help in a good cause. Tolerate no young man who is the habit of tippling, and makes light of this too important subject; give them to understand that it is a degradation to be reeling along the street, and an insult for them to appear in your presence under the influence of liquor: remember that some day you may be wives and mothers and the troubles and burdens that this curse surely brings may fall upon you.

A closing word to temperance men: no compromise with whisky or its venders; and do not wait for your fight, but at every chance attack him yourself and push him to the wall, and thus give him as small a scope to work upon as possible. F. J. H. W.

COUNTY AUDITOR.

Ed. Independent:—Please announce the name of A. S. Duley, of Perry tp. as a candidate for Auditor of Stark county, subject to the decision of the republican primary election.

El. Independent—Please announce the name of John N. Ramsey, of Lexington tp. as a candidate for auditor of Stark county subject to the decision of the republican meeting.

Public Call.—We, the undersigned citizens of Pike township, feel that in the past we have not had a just proportion of the county officers, and therefore propose the name of Eli Miller as candidate for sheriff subject to the decision of the republican primary election.

Mr. Miller was born, raised and lived in Pike all his life, until recently having moved to Canton. We heartily endorse him as our man, and recommend him to all, as of good moral character and a worthy man.

Road Notice.

Notice is hereby given that a petition will be presented to the commissioners of Stark county at their next session, to be held on the first Monday of June, A. D. 1871, praying for the establishment of a county road along the following described route in said county, to wit: Beginning at a point in Jackson township, Stark county, Ohio, in the center of the public road leading from the High Mills to the city of Canton, near Thomas Folkmor's Barn, thirty-five feet east of the half section line, between the northeast and northwest quarter of section twenty, township eleven, and range nine; thence nearly south to the center of said section twenty; thence south along said half section line to where it intersects the township road at the north line of section twenty nine; thence south along said township road to where it intersects the public road leading from the city of Massillon to Canal Fulton. A PETITIONER.

Poisonous Medicines.

The theory that the virus of diseases can be safely counteracted by doses of poison is false and dangerous. Within the last twenty-five years not less than a score of virulent poisons have been added to the repository of the medical profession They are given in small doses, otherwise they would destroy life immediately; but even in minute quantities, they produce, ultimately, very disastrous effects. It is unwise and unphilosophical to employ as remedies, powerful and insidious drugs, which in subjugating one disease, sow the seeds of another still more unmanageable. None of these terrible medicaments operates with as much directness and certainty upon the causes of disease as Hostetters' Stomach Bitters, a tonic and corrective, without a single deleterious ingredient in its composition. Arsenic and quinina are given for intermittents; bromide of potassium for nervous disorders; strychnine and prussic acid for general debility; mercury in various forms for liver complaint; preparations of chloroform and opium for sleeplessness, and yet these deadly drugs do not compare, as specifics for the diseases above enumerated, with that vegetable invigorant and alterative, while they are all so pernicious that is astonishing any physician should take the responsibility of prescribing them. Let invalids for their own sakes, try the Bitters before they resort to the poisons. The relief they will experience from a course of the harmless specific, will render a recourse to the unsafe preparations referred to, quite unnecessary.

Dr. Whittlesey, Esq.

Dear Sir:—Having stated it verbally to you, I have no hesitation in writing the fact, although not disposed in favor or to recommend patent medicines in general.

I do this more readily in regard to the sick headache cure prepared by Dr. Whittlesey, of Norwalk, Ohio. I have analyzed and tried it, and I recommend it as one of the best dyspepsia cures ever invented, and I feel that in recommending Whittlesey's cure I am doing at act of justice to the compounder of it, and an act of benevolence to those afflicted with dyspepsia and sick headache for which it is recommended.

Yours Respectfully,

Henry T. Helmbold's

COMPOUND FLUID

Extract Catawba

GRAPE PILLS.

Component Parts—Fluid Extract Rhubarb and Fluid Extract Catawba Grape Juice.

For Liver Complaints, Jaundice, Bilious Affections, Sick or Nervous Headache, Costiveness, etc. Purely vegetable containing no Mercury, Minerals or Deleterious drugs.

H

These pills are the most elightfully pleasant purgative, superseding castor oil, salts, magnetia, etc. There is nothing more acceptable to the stomach. They give tone and cause neither nausea nor griping pains. They are composed of the finest ingredients. After a few day's use of them, such an invigoration of the entire system takes place as to appear miraculous to the weak and enervated, whether arising from imprudence or disease. H. T. Helmbold's Compound Fluid Extract Catawaba Grape Pills are not sugar coated, from the fact that sugar coated pills do not dissolve, but pass through the stomach without dissolving, consequently do not produce the desired effect. The Catawaba Grape Pills, being pleasant in taste and odor, do not necessitate their being sugar coated, Price 50 cents per box.

E

Henry T. Helmbold's

Highly Concentrated Compound

Fluid Extract Sarsaparilla

Will radically exterminate from the system scrofula, syphilis, fever sores, ulcers, sore eyes sore legs, sore mouth, sore head, bronchitis, skin diseases, salt rheum, cankers, runnings from the ear, white swellings tumors, cancerous affections, nodes, rickets, glandular swellings, night sweats, rash, dyspepsia, and all diseases that have been established in the system for years.

L

Being prepared expressly for the above complaints, its blood purifying propensities are greater than any other preparation of Sarsaparilla. It gives the complection a clear and healthy color, and restores the patient to a state of health and purity. And is the only reliable remedy for the cure of pains and swellings of the bones, ulcerations of the throat and legs, blotches, pimples, erysipelas and all scaly eruptions of the skin, and beautifying the complexion. Price $1,50 per bottle.

M

Henry T. Helmbold's

CONCENTRATED

Fluid Extract Buchu,

The Great Diuretic, has cured every case of diabetes in which it has been given. Irritation of the neck of the bladder and inflamation of the kidneys, ulcerations of the kidneys and bladder, retention of the urine, gravel, milky discharges, and for enfeebled and delicate constitutions of both sexes, attended with loss of memory, indisposition, weak nerves, trembling, pain in the back, hot hands, dryness of the skin, and a host of other symptoms. Used by persons from the ages of eighteen to twenty-five, and from thirty-five to fifty-five, or in the decline or change of life; after confinement or labor pains; bed wetting in children.

B

Helmbold's Extract Buchu is Diuretic and blood purifying, and cures diseases arising from dissipation, excess and imprudences in life, impurities of the blood, etc., supersedes copaiby in affections in which it is used, and syphilic affections—in these affections used in connection with Helmbold's rose wash.

Ladies, In many affections peculiar to ladies, the buchu is unequaled by any other remedy—as in chlorosis, irregularity, ulcerated state of the uteris, leucorrhœa or whites sterility, and for all complaints incident to the sex, whether arising from indiscretion or dissipation. It is prescribed by physicians and midwives for the enfeebled and delicate constitutions of both sexes, and all ages.

O

H. T. HELMBOLD'S EXTRACT BUCHU cures diseases arising from imprudences habits of dissipation, etc. in all their stages, at little expense, little or no change in diet, no inconvenience, and no exposure. It causes a frequent desire, and gives strength to urinate, thereby removing obstructions, preventing and curing strictures of the urethra, so fiequent in this class of diseases.

Use Helmbold's Extract Buchu for all affections and diseases of the urinary organs, whether existing in male or female, from whatever cause originating and no matter of how long standing. Price $1,50 cents per bottle.

L

HELMBOLD'S IMPROVED ROSE WASH cannot be surpassed as a face wash, and will be found the only specific remedy in every species of cutaneous affection. It speedily eradicates pimples, spots, indurations of the cutaneous membrane, etc, dispels redness and incipient inflamation, hives, rash, moth patches, dryness of the scalp or skip, frost bites, and all purposes for which salves and ointments are used. It is an excellent Lotion for diseases of a syphilitic nature, and as an injection for diseases of the urinary organs, arising from habits of dissipation, used in connection with the extracts Buchu, Sarsaparilla, and Catawaba Grape Pills, in such diseases as recommended cannot be surpassed. Price $1 per bottle.

D

Full and explicit directions accompanying the medicines. Evidence of the most respo nsible and reliable character furnished on application, with hundreds of thousands of living witnesses, and upward of 30,000 unsolicited certificates and recommendatory letters, many of which are from the highest sources, including eminent physicians, clergymen, statesmen, etc. The proprietor has never resorted to their publication in the newspapers; he does not do this from the fact that his articles rank as standard preparations, and do not need to be propped up by certificates.

Before the war, Mr. Paul Dopunt, the great Paris printer, carried on a business of about 5,000,000 francs a year. He divided ten per cent. of the profits among his work men, according to his individual merit, and not in proportion to their different salaries. This house, says Mr. Thurlow's recent report, has followed this course for twenty years, and claims the first place in the application of one of the happiest and most successful ideas of modern times. Each new hand, on admission, receive a silver medal worth five frances as a badge of office and link between him and his employer. This establishment has its sick and provident funds of all the usual kinds, its loans of honor to its workmen, its saving banks, its schools, libraries, reading and singing rooms, its co-operative stores, its gardens, baths, in short, every invention of modern days for promoting health, wealth, happiness and religion. To use the words of Mr. Dupont himself, "it it is more than a work shop; it is a family, composed of a thousand persons."

THE KIND OF PREACHING WE WANT.—True it is, and shameful as true, that the pulpit, by ceasing to instruct, has too often made the pews cease to expect instruction. Simply to cater for people's anticipations, and week after week to ring the changes on perfectly familiar doctrines, is to be a priestly expounder of the past, not a living prophet of the present. No man is fit for the duties of pulpit instruction whose soul is not all aime with fresh and original inspiration. The day is fast going by when pious stupidity could be a power in the pulpit. With every year the demand of the people is louder for preaching that is intelligent and bears directly on real issues. They crave instruction, new light, on the vital questions of today.—*Abbot.*

The latest decision in the case of the shooting of a seducer by an outraged brother of the victim, is given in a Maryland jury, which returned a verdict of not guilty, in the case of Henry C. Black, of Frederick, who shot Col. W. McKaig, in October last, whose trial was concluded on the 21st inst. Whether or not the law justifies such a verdict, it is certain that the great masses of the people concur in the opinion that there must be some remedy quick and sure for the prevention of such shameful deeds. If the law is not sufficiently powerful in the matter, we cannot wonder that human nature will take justice in its own hands.—Beacon.

A PRESBYTERIAN KISS.—The Rev. John Brown courted a lady upward to six years, and was so singularly modest and bashful that he had never ventured to kiss her. One day it occurred to him that it would not be a bad thing to do. So, it is recorded, he said; 'Janet, my woman, we've been acquainted for six years an'—an'—I have never got a kiss. D'ye think I may have one, my bonnie lass.' 'Just as you please, John, only be becomin' wi' it.' 'Surely we'll ask a blessing.' The blessing was asked and the kiss exchanged. 'O, woman it was gude We'll now return thanks.' And they did.

Without boasting of being an organ of immense influence, we may with diffidence claim that the paper is not without usefulness in the right direction, ever contending for justice on all the living issues of the day. But its principal business has ever been to subserve the local interests of the community with which it is identified, and so it proposes to continue. Its home record of the ever varying phases of business, of the prosperity of the city, and of the social and moral state of society here, with other matters too numerous to specify, will give those who come after us, and have occasion to examine the files of this paper, a faithful history of the years of its existence.

We solicit the continued patronage of our people in the confidence that we shall render satisfaction—at least as near as as we can come at it—and for such as are removing elsewhere we hope to make the INDEPENDENT a very welcome visitor.

Dr. J. LONG,
Eclectic Physician,
Has located himself at Massillon, O, for the treatment of
Female & Chronic Diseases.
Office east of the Park, second door of Mr. Falke's new building.
All consultations and examinations of patients made free of charge.
Dr. Long examines and explains your disease without asking any questions. If he understands your case you know it, and cannot be deceived. If he cannot tell your disease, and how, you feel without asking questions he does not consider himself competent to treat your case. This is the criterion to go by, and patients should not be satisfied with any other. This is the only direct and positive evidence of my ability as a scientific physician, and by this standard I am willing to be judged.
A proper diagnosis of local disease, without constitutional symptoms, that is, not affecting the system generally, must depend upon the judgement of both patient and physician.
Give Dr. Long a call, and satisfy yourselves whether he understands your cases sufficiently well to treat them successfully.

Human Misery.
Just Published in a Sealed Envelope, Price six cents. A Lecture on the Nature, Treatment and Radical Cure of
of Spermatorrhœa, or Seminal weakness, involuntary seminal losses, impotency, mental and physical incapacity, impediments to marriage, etc: also, consumption, epilepsy, and fits, induced by self indulgence or sexual extravagance.
The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice that the alarming consequences of self abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.
This lecture should be in the hands of every youth and every man in the land.

DR. WHITTIER
Continues to treat all private diseases, syphilis in all its forms, gonorrhœa, gleet, stricture, orchitis, and all urinary diseases, and the effects of mercury are completely eradicated; spermatorrhœa or seminal weakness and impotency, resulting from self abuse or other causes, and which produce some of the following effects, as blotches, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally so prostrating the sexual system as to render marriage unsatisfactory, and therefore imprudent, are per a nently cured.
It is self evident that the physician who confines himself exclusively to the study of a certain class of diseases and treats thousands of cases every year must acquire a greater skill in that speciality than one in general practice.
The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the doctor's opinion can be obtained by giving a written statement of the case, and medicines can be sent by mail or express.
The doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and private diseases that can be had free at office or by mail, in sealed envelope, for two stamps. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.

DR. PIERCE'S
ALT. EXT. OR GOLDEN MEDICAL DISCOVERY
The originator of this word claims to have discovered and combined in harmony those of Nature's most sovereign medical properties than was ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of Bronchitis and the early stages of Consumption, it has astonished the medical faculty, and hundreds of the best physicians pronounce it one greatest medical discoveries of the age. By its great and thorough blood purifying properties, it cures all Humors from the worst Scrofula to a common Pimple or Eruption. Mineral Poisons, Syphilitic and Venereal Diseases, and their effects are eradicated and vigorous health and a sound constitution established. Salt Rheum, Scald Head, Fever Sores, in short, all the numerous diseases caused by bad blood, are conquered this powerful, purifying, and invigorating medicine, for Liver Complaint, Billious Disorders and Habitual Constipation, it has produced hundreds of perfect and permanent cures where other medicines have failed.
The proprietor offers $1,000 reward for a medicine that will equal it in the cure of all the diseases for which it is recommended. Beware of counterfeits and worthless imitations. See that my private Government Stamp, which is a positive guarantee of Genuineness, is upon the outside wrapper. This medicine is sold by Druggists at $1.00 per bottle. Prepared by R. V. PIERCE, M. D., Sole Proprietor, at his Chemical Laboratory Seneca street, Buffola, N. Y.
